OUR MISSION:

Since 1979, LBFE Boston has sought to alleviate social isolation among older Bostonians. Today, our work brings innovative programming into senior housing and senior centers throughout the city. With opportunities that range from intergenerational gatherings to technology training to the arts, LBFE Boston helps older adults learn and grow in community.

Why attend Friends on the Harbor 2024?

To support LBFE Boston's programs which help older adults, like Enid and Carmen, learn new skills and build new social connections in their communities and with students like Logan.

The program gave me the opportunity to meet with the younger generation and others within the community here. It gave us a sense of purpose and a way for us all to learn from each other.

Enid
CitySites participant

Working with LBFE opened my eyes to the power of intergenerational interactions and community. It is so rewarding to witness the excitement that older adults feel when they begin mastering their new technology or when we form genuine connections with them.
